## Company History

Lawhon & Associates, Inc. (L&A) was established in 1985 in Columbus, Ohio with a continuing policy of providing sound environmental technical services through the personal direction of the principals and senior staff. Over the past 20 years, L&A has developed the expertise to handle projects involving property transactions, environmental site investigations and remediation, environmental engineering solutions, indoor environmental quality, and a broad spectrum of NEPA Compliance Services.

L&A provides value beyond standard commodity-type services. The depth of experience and the professional credentials of our senior staff and senior associates give us the ability to evaluate the technical, regulatory, human health, natural resource and community dimensions of complex situations. By placing environmental issues within the context of the larger setting, we are able to assist our clients in developing common-sense strategies and solutions.

## Federal Experience

L&A and its staff have decades of experience working for federal agencies including:

- Army Corps of Engineers
- NRCS
- NASA
- National Park Service
- FHWA
- USPS
- Air Force
- EPA Regions 1,5,6,7
- DOE
- National Guard
- USAID
- Forest Service

## Environmental Staff

L&A's senior level engineers and scientists have over 250 years of combined experience with environmental issues. Our staff has experience managing and conducting environmental projects in nearly all states and internationally. This provides knowledge of local issues, requirements, and conditions. It also gives Lawhon the experience base to provide unique approaches and solutions to environment issues. L&A's senior level staff and associates represent the following disciplines and credentials:

- Ph.D. - Toxicology and Epidemiology; certified by the American Board of Toxicology
- Ph.D. - Chemical Engineering
- Ph.D. - Ecology; Certified Professional Senior Ecologist
- Ph.D.- Epidemiology
- Registered Professional Engineers - Chemical and Mechanical
- Certified Industrial Hygienist
- Certified Safety Professional
- Certified Professional Geologist
- Ohio Voluntary Action Program Certified Environmental Professional
- Microbiologist
- Archaeologist and Cultural Resources
