

Sr. Transportation Specialist

Lawhon & Associates (L&A) is seeking a scientist or engineer with fifteen years of transportation-related consulting experience to join our NEPA/Planning practice in a senior leadership role. The successful candidate will enjoy managing roadway, aviation and transit projects that require environmental or preliminary engineering services in a team-oriented, multi-disciplined and fast-paced environment. This is a full-time position (>32 hours per week) in our Columbus office, working directly with Managing Principals. There are opportunities for continued growth and advancement within the company.

Responsibilities

It is anticipated that workload will be distributed as follows: project pursuits and proposals (15%), project management (35%), technical delivery (35%), staff supervision and mentorship (15%). Specific responsibilities include:

- Staff supervision and workload management
- Business development
- Opportunity identification and evaluation
- Project teaming/partnering
- Qualifications/submittal compilation
- Scope and fee preparation
- Project and task management
- Technical deliverable preparation
- Project cost and invoicing oversight
- Client relationship management
- Coaching and mentorship

Qualifications

Qualified candidates will possess a Bachelor's degree in an environmental or engineering-related field. They must have over 15 years of transportation-related consulting and project management experience, with knowledge of the ODOT/LPA process. Experience with NEPA and an engineering license in the State of Ohio is desired, but not required.

Requirements

The required competencies and skills include:

- Proven project management expertise
- Effective communication skills
- Ability to work collaboratively and independently
- Strong analytical and problem-solving capabilities
- Strong technical writing skills
- Ability to manage multiple priorities and meet deadlines
- Self-motivated with a commitment to high quality work/performance
- Willingness to travel across Ohio
- Knowledge of Microsoft Office products

Firm Overview

Lawhon & Associates, Inc. (L&A) provides full-service environmental engineering and consulting services to the public and private sectors. The company was established in 1985 in Columbus, Ohio and owes its success to a continuing policy of providing sound environmental technical solutions through the personal direction of the principals and staff. Over the last 39 years, our services have grown to include hazardous building materials consulting, environmental site investigations and remediation; ecological and wetland services; cultural and historic resources evaluations; indoor environmental quality studies; NEPA compliance and transportation planning. L&A is a women-owned business and licensed engineering company (#03-0125) in the State of Ohio, with offices in Columbus, Cleveland, and Cincinnati, Ohio. We maintain several state and local DBE certifications and are prequalified by the Ohio Department of Transportation in all environmental categories.
